The Geochemist's Workbench is the standard for geochemical modeling in aqueous systems. Use the GWB to create Eh-pH diagrams, calculate speciation in solution, trace reaction paths, model reactive transport in flowing groundwater, and much more.

The Geochemist's Workbench

In computer vision, the fundamental matrix is a 3×3 matrix which relates corresponding points in stereo images. In epipolar geometry, with homogeneous image coordinates, x and $x' \in \mathbb{P}^2$, of corresponding points in a stereo image pair, F_x describes a line (an epipolar line) on which the corresponding point $x' \in \mathbb{P}^2$ on the other image must lie.

Fundamental matrix (computer vision) - Wikipedia

Features Needed in Data Visualization Software. Data visualization can be an effective marketing tool, provided the user uses it properly to get the information they need.
